

DN250 Deep Neckring Inspection 4 points, 8mm thickness. The maximum opening angle of the cover is 135° or 120°. Can be used as injection port. Manlid seal sold separately.

Option - swingbolt combinations are available.

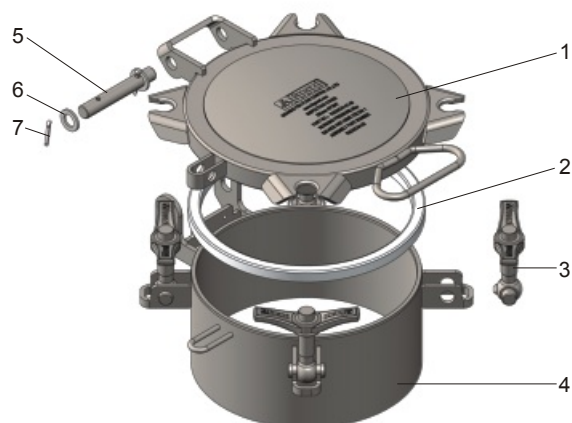

Fitting Details

Part No.: R4243C04-00
 Nominal Diameter: 250mm
 Design Pressure: 4Bar(58PSI)
 Test Pressure: 6Bar(87PSI)
 Points: 4
 Design Temperature: - 40°C ~ +200°C
 Weight: 6.5kg
 Neckring Weight: 6kg

Temperature range depends on the seal.
 Neckring profiled to suit tank radius.
